ABDULLAHI IMAM ALIYU

Software Developer

Kaduna State, Nigeria

imamzaria07@gmail.com | +234 906 5589 151 | github.com/aliyuimam |

SUMMARY

Full-Stack Software Developer with 5+ years of experience specializing in **React.js, Node.js, PHP, MySQL and MongoDB** to build high-performance, scalable web applications. Proven track record in developing secure authentication systems, RESTful APIs, and fintech integrations. Combined technical expertise with a background as a **Software Development Instructor**, demonstrating strong leadership and the ability to simplify complex architectural concepts for emerging talent.

EXPERIENCE

❖ **Software Developer | The Axioms IT Hub ..... 2019 – Present**

- **Architected and deployed** full-stack solutions for real estate and e-commerce sectors, utilizing React for dynamic frontends and Node.js/PHP for robust server-side logic.
- **Engineered core features** for VTU (Virtual Top-Up) and fintech dashboards, integrating secure payment gateways and role-based access control (RBAC).
- **Optimized database schemas** in MongoDB and MySQL to improve data retrieval speeds and application responsiveness.
- **Mentored 50+ aspiring developers** as a Lead Instructor, designing project-based curricula that bridged the gap between academic theory and industry standards.

❖ **Intern Software Developer | Lexington Technologies ..... Feb 2024 – Feb 2025**

Collaborated in an Agile environment to deliver high-quality code, consistently meeting sprint deadlines and technical requirements.

- **Refined code quality** by participating in rigorous peer reviews, reducing production bugs and ensuring adherence to Clean Code principles.
- **Developed and presented** technical prototypes to stakeholders, translating business needs into functional software features.

❖ **Founder and CEO Flinix Technologies ..... 2024 - date**

SELECTED PROJECTS

❖ **Real Estate Management System | Full-Stack Developer**

- Developed a property listing portal featuring interactive map searches and advanced filtering.
- Implemented an automated document management system for lease agreements and KYC verification.

❖ **VTU & Fintech Service Platform | Lead Developer**

- Engineered a high-traffic application enabling automated airtime and utility payments via RESTful API integrations.
- Designed a secure wallet system with transaction logging and instant balance updates using SQL transactions.

EDUCATION

❖ **Kaduna State University ..... 2020 – 2025**

B.Sc. Computer Science

- *Awaiting NYSC Mobilization*

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, PHP, RESTful APIs, JWT Authentication
- **Database:** MongoDB, MySQL, PostgreSQL, Firebase
- **Tools:** Git/GitHub, Postman, Vercel, Render, Paystack/Stripe API Integration
